Level of Commitment: Somewhat active

Skills and Experience: Currently I'm working with 2d animation and vfx. I had a couple of tasks for 3d animation in maya, so if I can export animation out from there in proper format you will use then I want to provide you with my assistance in 3d animation when I'll have a free time. I guess it can be something like 8-16 hours in a week. Also I can create high quality animated sprite sequence for any kind of game effects. I can't link my works because of confidentiality agreement. But I can show what I have during a skype call.
