Skype Username: azcheesman

Country of Residence: England

Timezone: UTC (00)

Interested in: Sound Effects

Level of Commitment: Highly active

Skills and Experience: I have a first class BA in Creative Music Technology. My background is in electroacoustic composition, however, I have have done a lot of recordings of sounds for these and lots of foley recordings, so have created my own large bank of samples and field recordings.

I have done some sound design work to picture and most of my work involves manipulating sounds in unique ways.

I'd love to be able to get involved with this project, as I have plenty of free time and I'm looking for projects to work on to gain experience in game sound design, as it is an area I'd love to go into.
