Skills and Experience: Since 2010 I've run a company called Cloud Sixteen (cloudsixteen.com) selling (and making a good profit) on roleplaying mods I have created for Garry's Mod, specifically my main project Half-Life 2: Roleplay

I've been coding since the age of 13 (I'm 25 this year), and I work full time in the mobile games industry as a C# client programmer using Unity 3D engine.

I don't have experience with Creation engine scripting, or the CK, but I do learn quickly.

Experience in C++, C, C#, Lua, PHP, Python, JavaScript and some Ruby

I am working on a personal project which will be published on Steam (has been Greenlit) (solarnova-game.com)
