Skills and Experience: I am a freelance production artist and have experience working as a production artist in group settings. I graduated from the Savannah College of Art and Design with a BFA in sequential art. I've been an artist since I was very little, and have always loved creating concepts for almost everything and pride myself on the level of detail in my work. I'm seeking to add some practical larger experience to my resume and to create connections between myself and others who love their craft as much as I do. I think my skills will be of use to your project.
