TESRenewal Username: lsmiller@fullsail.edu

Email Address: logan@sin.life

Skype Username: SinclairArt

Country of Residence: United States

Timezone: UTC -08 (Pacific Time)

Interested in: 3D Modelling, Animation, Concept Art, Texturing

Level of Commitment: Highly active

Skills and Experience: My professor told me to contact you, he said he had worked on a previous project with your community and that you guys are always looking for creative talent. I am skilled with Autodesk Maya, Zbrush, and photoshop. I would love to be able to model some assets for you, I have a decent amount of free time while taking my classes and I want to be a part of something big. You can view my art and my 3D work here: www.sin.life or www.sinclairart.co. I would also be capable of creating concept art, and "Tileable Textures." Having said that, I would definitely prefer modeling. If I got a modeling position I would be more

than "Highly Active."
