Country of Residence: Slovakia

Timezone: UTC +01

Interested in: Music, Sound Effects

Level of Commitment: Moderately active

Skills and Experience: I am a music producer. I'm making electronic music for fun and I would say I have good skills with mixing ambience, effects and background music. If there is anything in this field I would love to help. I have FL Studio 11 and lots of plugins that allow me to make new sounds plus a wide library of other sounds I can use too. I would like mainly to make the ambiental parts and short sound effects. Even if it would be anything small and really easy, I would like to help. If you guys are interested, send me an email to: mackojakub70@gmail.com. Also I have alot of "weird" music on my soundcloud but there are some good

proofs I can do well with mixing them and making my own. Hope you guys will see it. "Times Like These" is the song I've put most effort into so be sure to check it out. Also I'm including below my older profile where I used to put some tunes I've made with MAGIX Music Maker, what is software for beginners, I would say. But I'm putting it there anyways, maybe you will like it.
