Country of Residence: United Kingdom

Timezone: UTC (00)

Interested in: Music, Sound Effects, Ambient audio (caves etc.)

Level of Commitment: Somewhat active

Skills and Experience: I've been a practicing musician for around 7 years now, and I have 5 years of experience working specifically with music in an electronic format. Using this, I have the ability to compose original music and sound design (such as ambient audio, or sound effects.) I would also be able to "re-score" music from the game into a more "appropriate" quality for the newer version of the game.

Attached is 2 very different showcases of my music, one electronic and one acoustic that were both mixed by me.
