

Skywind Application

TESRenewal Username: tatisanches

Country of Residence: United Kingdom

Timezone: UTC (00)

Interested in: Music, Sound Effects

Level of Commitment: Highly active

Skills and Experience: I'm really interested in working as a volunteer at Skywind with the Sound Effects or Music team.

I started my sound carrier as an electronic music dj, touring in countries such as Austria, Bolivia, Brazil, Chile, Croatia, Denmark, England, France, Germany, Netherlands, Portugal, Spain and Sweden playing under the Brazilian label Tropical Beats and the Germany label Plastik Park on which she released a V.A compilation in 2002.

Based first in Brazil and than Berlin, as dj and music producer I had the opportunity to travel different countries, experimenting with sounds,

learning techniques, and developing a vast knowledge in this field, creating a solid understanding of the fundamental principles of audio as a science and art form.

I also developed a strong academic curriculum, I did several audio, technology and music courses during those years, building a strong theoretical and practical foundation.

I moved to London in 2012 to start my studies in sound design and audio post production, which made me decided to quit my dj carrier to only concentrate on this path. Since that I did several strong works in this field, from film post production, sound design for exhibitions, animations and games, location sound recording, dialogue mixing and music production, working with partners as Adidas, TruTv, King's Cross Development to name a few.

During this years I developed a strong practice in sound mixing, synthesis, sound edit and sound recording.

I currently work at my personal studio, where I have available several hardwares, working with both digital and analog platform. (For studio set up see below)

I believe I have strong technical skills, knowledge and art sensibility to take this position. It would be such an incredible opportunity to be part of Skywind sound team. This is the opportunity I have been looking for, and I feel ready to embrace it, with hard work, dedication and strong commitment.

For portfolio please check www.tatisanches.com. Im also sending a link where you could download a game I did sound design and music for.
