Skype Username: None sorry :(

Country of Residence: USA

Timezone: UTC -05 (Eastern Time)

Interested in: Coding/Scripting/Mechanics

Level of Commitment: Somewhat active

Skills and Experience: I'm fairly experienced with papyrus (though I haven't coded with papyrus in a few months). In the portfolio link, the mods that are papyrus-based are Parentless Connection Framework, Smart Potions, Reading List*, Automatic Perk Unlocking*, Display Equipped Magic, and Walking through Molasses.

Reading List and Automatic Perk Unlocking are good examples of complex scripting I've managed in the engine.

Display Equipped Magic and Walking Through Molasses are good examples of simple scripting.

A note on the Level of Commitment: I've marked somewhat because I'm certain I can manage that. Depending on how things go in another project I'm working on, however, I can likely manage much more time (the other project's community is winding down). I just don't want to mark higher than I'm certain of at the moment.
