Level of Commitment: Somewhat active

Skills and Experience: I have a Bachelor's of Science in Computer Science from UT Dallas, I am currently working on my Master's of Science for Computer Science from UT Dallas, with a focus on Intelligent Systems (AI/Machine Learning).

I've been programming for 7 years now, and just recently finished a graduate course where we created a game, in which I did all the AI programming.

The link for our completed game project isn't up yet (the semester just ended) but I will give it as soon as I receive it.
