Skills and Experience: I have mostly worked as a commercial, tv and short film editor professionally, with focus on editing, grading, sound design and vfxs.

But in recent years I have started working as a texture artist. Which is a way I earn money on from the steam workshop.

So my main skills would be anything related to editing and photoshop/texturing, but I wanna improve as a 3d artist as well, and I am currently working to get into a 3d artist school.

I have also done some sound effect work for the game The Age of Decadence. <http://i.imgur.com/dspY9Xo.png>

Software I use:

Avid media Composer.

Premiere Pro

3d Studio Max

Photoshop

Quixel
