Level of Commitment: Highly active

Skills and Experience: Hello,

I'm an experienced composer and music producer based in Bergen, Norway.

Obviously I'm a big fan of The Elder Scroll series so this project for me is really inspiring.

A little about me:

I scored for indie games, 2 movies, documentaries, commercials and recently I composed the original soundtrack for Starcrafts MOD, a "cartoony" version of Starcraft developed by Carbot Animation in co. with Blizzard.

I'm the lead composer of a point&click horror game based on Lovecraft books, called "Lovecraft Tales".

I received very good feedback on my works by well-known game and movie composers and sometimes I get asked from other composers to mix and master their orchestral/cinematic tracks.

Some works from my Portfolio:

1)Fantasy cinematic soundtrack for a short movie:

2)Starcrafts MOD preview (4 tracks of 10):

3)Epic and fantasy music for a series of short documentaries on Italian castles:

4)Ethnic track for an indie rpg game still under development (all percussions and ethnic instruments here are real, played and recorded by me):

5)Lovecraft Tales game preview (dark ambient w/ horror soundscapes):

Do you need extra fight music? Soundscapes? Location music? Dungeon tense/horror music? Whatever you need I'll be MORE than happy to help you out! Composing is my first passion, RPG open world fantasy games is my second passion, combining the 2 things will make me really excited!!

Besides, I can provide recordings for female voice acting (my girlfriend

has a perfect American accent and she is really good at performing), I'll fill up the proper form for VA.

Hope to hear from you as soon as possible :)

All the best,
Gianni.
