Interested in: Concept Art, Voice Acting, Writing

Level of Commitment: Moderately active

Skills and Experience: I'm pretty good at drawing, so concept art is something i might be able to help with. I haven't uploaded much to my deviantART account, but you'll be able to see at what level i am.

I haven't done concept art before, but it's something i'm willing to try, as it might be helpful for you and practice for me.

I'm not an experienced writer, but I was pretty good at it while in school, so it's also something i could try if you need.
