Skills and Experience: I am studying for the bachelor degree of software engineering. I know such languages as C#, C++, Java, Ruby, PHP, JavaScript, Assembly language.

My main focus for the last 4 years was web development, so i can also help you with your website if you need it.

Since August/September I began to study game development. Firstly, I learned how to work with Unreal Engine, and now I am working on the

game and graphics engine from scratch to better understand how games works. it is worth noting that I study not only the programming of games, but also game design. I read a lot of books to understand the process of making a good game.
