Skype Username: Use my e-mail to find me, please. I don't know my Skype name.

Country of Residence: Brazil

Timezone: UTC -03

Interested in: Coding/Scripting/Mechanics

Level of Commitment: Somewhat active

Skills and Experience: I'm a 5th semester Game Design student here in Brazil. My classes range from programming and sound design to 3D modelling/animation, character design and game mechanics. That also means I know about every single process, but not an expert in anything. My favourite and main subject is programming.

I know and enjoy coding in Processing (Java) and Unity3D (C#), but I cannot precisely say how much I know.

AS for my commitment, I'll say somewhat: College takes a lot of my time,

so...

Our "July break" lasts a month and a half. As Skywind has no ETA, I'll leave my profile here.

I would actually like to go through some kind of test, to be sure I'm capable of helping you people. Thank you for your time.
