

Skywind Application

TESRenewal Username: Cameron71

Country of Residence: United States

Timezone: UTC -08 (Pacific Time)

Interested in: navmesh

Level of Commitment: Moderately active

Skills and Experience: I am interested in Skyblivion not Skywind.

I hand nav-meshed Solitude, Windhelm, and Whiterun per the mods below. They are all combined mods with new cells that I both edited and nav-meshed. Many of the new cells where from the other mods, but some I created myself from scratch.

I am comfortable with water (blue), linking cells doors (green), preferred pathing (gold), making sure different cells line up (green lines). I do not know how to make NPC's take cover but I know it's possible (blue lines?). I can work with dots, lines and triangles, both seperately and all together.
