

Skywind Application

TESRenewal Username: carlosrrmusic

Country of Residence:

Timezone:

Interested in: Music, Sound Design / Mastering

Level of Commitment:

Skills and Experience: I've been an orchestra conductor for almost 10 years and a media composer for 4. I've worked in over 20 films and documentaries, composing scores and some sound design. I've done music in advertising for brands like Heineken and Henkel , and I'm about to have an animated series with my music in Netflix. I had some previous experiences working in video games, but the projects never came to an end. I have some awards and nominations, including a screening in Festival de Cannes 2017.

In my portfolio links you will find orchestral and synth mockups and some real recordings as well.

I can also offer you the possibility to record the important themes of Skywind with a 50 piece orchestra in Graz, Austria for free, within some deadlines.

It would be a pleasure to participate in the Skywind project. Thanks a lot for your time and consideration.
