Interested in: Voice Acting, Quality Assurance Testing

Level of Commitment: Highly active

Skills and Experience: I have volunteered to alpha and beta test various titles over 15 years with some of the more recognizable ones being:

Elder Scrolls Online

Diablo 3

Heroes of the Storm

Might Quest for Epic Loot

Rainbow Six Siege

I would like to further my knowledge in the quality assurance field in

hopes that it might lead me to my aspiration as a tester at Ubisoft in Toronto (I've applied a few times but to no avail yet :(). I have been watching the Skywind development quietly for over a year now and feel that my contribution to a revamp of one of my favourite games of all time will be rewarding to both myself, my aspirations and the community as a whole. I understand how meticulous and scrutinizing testing can be and am hoping that with the right guidance I can excel to the next level. I am committed to devoting a significant amount of time to this project and will treat it as a second job.

Thank you for your consideration,

Mitchell
