

Skywind Application

TESRenewal Username: CodingInDMinor

Country of Residence:

Timezone:

Interested in: Music, Sound Design / Mastering, Quality Assurance

Level of Commitment:

Skills and Experience: I was the composer and sound editor for My Little Investigations, which was an entirely volunteer-based fan project based on Phoenix Wright and My Little Pony. Duties included editing over 2000 lines of dialogue. I detailed much of my workflow here:

<https://imgur.com/a/4ILYd>

For music I use Logic Studio X, and the East West Symphony Orchestra. I am also proficient in Pro Tools and Reaper, including using custom tools to help my workflow.

Additionally I used to make mods for Guitar Hero, and eventually worked as

a tester/author on the Rock Band Network.

I'm currently a QA tester for Skymap Games, and I am working as a coder on a VR training simulator for a major healthcare provider.
