Skills and Experience: I am an 18 year old student hoping to major in computer science and then enter the video game industry. I am a quick learner and am currently using textbooks on Java, HTML, Python and CSS to increase my knowledge of programming. However, due to a lack of money and development opportunities I have not had any luck getting prior experience on collaborative projects. I would be immensely grateful if you allowed me to enter the training for Skywind.

Edit: due to my lack of experience with Papyrus/Creation Kit for Proof of Skill(s) 1 I have just posted a link pre-Oblivion Cyrodiil.
