Interested in: Art

Level of Commitment: Moderately active

Skills and Experience: I can help with anything that involves Illustrator or Photoshop. I don't know how to code, but I'm a graphic designer. If you have anything in those areas you need assistance with, I've got free time to help. Also, if there's any no-skill-easy-but-time-consuming things that you could FWD me to do and send back, I'd love to help.
