Skills and Experience: I'm a second year Computer Science student and have experience writing programs in C and Java. I also have a contractor job as a remote iOS developer using Swift, so I'm familiar with object oriented programming. I'm not familiar with the creation kit, but I'm looking at the Papyrus primer and it doesn't seem too bad.

Basically I love Morrowind and really want to see this project happen. I don't have very much time but I'd like to contribute what I can.
