

Skywind Application

TESRenewal Username: Fablub

Country of Residence: Germany

Timezone: UTC +01

Interested in: Software Testing

Level of Commitment: Somewhat active

Skills and Experience: I am currently working as a Software Test Engineer for medical soft- and hardware and have done so for about a year, I know how to work with Test Cases/ Runs, Requirements, Specifications etc. I know how to file good bug reports for the developers. I already have experience with JIRA and Confluence but am willing to adapt to whatever program you use.

I can also do miscellaneous tasks if you want me to.

PS: I don't have a cat so I linked my dog, hope that's okay too
