Level of Commitment: Somewhat active

Skills and Experience: I am currently employed at Hangar 13 Games as a World Designer working on the upcoming Mafia 3. I have experience in level design, using a visual scripting language, writing dialogue for persistent characters, and recording scratch VO.

My work on the project should slow down in a month or two and I will be able to commit time to the Skywind team on weekends.

I cannot show anything of what I've done on Mafia 3 due to an existing NDA with 2k Games, but my LinkedIn profile is provided below.
