

Skywind Application

TESRenewal Username: Freeradical

Country of Residence: United States

Timezone: UTC -05 (Eastern Time)

Interested in: Landscaping, Writing

Level of Commitment: Moderately active

Skills and Experience: Back during Morrowind and Oblivion I mostly tinkered around with exteriors. These days I do quite a lot of interior design with Creation Kit, though some exteriors, too. I have made several kinds of dungeons, and am quite willing to experiment with new sets.

I am experienced with navmesh and almost all of the elements required for creating an immersive location/landscape.

I have made quite a few different characters and have experimented with AI packaging and combat styles quite a bit.

I'm a novice at scripting, usually piggy-backing to make my own. I usually employ existing ones to perform actions or create various effects.

I've never shared my work anywhere except with friends. I made the RagnvaldStair mod below exclusively to join Skywind.
