Country of Residence: United States of America

Timezone: UTC -05 (Eastern Time)

Interested in: Coding/Scripting/Mechanics,Writing

Level of Commitment: Moderately active

Skills and Experience: I have coded plenty in the past (in Java, C++, C#, etc) and have written some stories on my own (short and long). I have not worked with Papyrus in the past so I would need to go through the mentoring program, however I have learned coding languages in relatively short time so I think I'll be able to pick it up in time to contribute ;)

P.S. For what it's worth I added a picture of a robot I built in real life.. It's called URO (Unidentified Robotic Object).
