

Skywind Application

TESRenewal Username: Kninja50

Country of Residence: U.S.

Timezone: UTC -05 (Eastern Time)

Interested in: Coding/Scripting/Mechanics

Level of Commitment: Somewhat active

Skills and Experience: B.S. Degree in Computer Science, 2 years Java programming experience, use C# in personal projects, scripting experience in Unity with C# and JavaScript. Also have SQL Server experience.

Willing to work with Papyrus or other tools. Read through Papyrus tutorials and understand the basics. Willing to learn how current project is organized to ensure my work conforms to the project's standards. I currently have no projects created in Papyrus, link provided will reflect this.

Quick learner that has 2 years of experience working on a large project (tons of legacy code) involving almost 20 programmers. Experience with Git and source management.

Motivated by the desire to someday take out cliff racers with Skyrim's bow and magic engine and to help people enjoy Morrowind in an updated engine.

Also willing to do editing of writing if job is in demand.
