Interested in: Music, Sound Effects, Dialogue Editing

Level of Commitment: Moderately active

Skills and Experience: I have a Bachelors Degree in Recording Arts from Full Sail University, I am currently a student there for my Masters in Game Design as well. I worked on a game entitled "Sun Sentinels" that is due to be released quite soon as the Audio Lead working in the Unity engine. I have experience in Unreal as well. I primarily use three separate DAWs for audio, depending on what I am doing: Pro Tools 11, Logic Pro X, and Audacity. I can edit dialogue, do sound design, work in documentation and organization, compose music, or anything else that will help the audio team.
