Interested in: 3D Modelling

Level of Commitment: Moderately active

Skills and Experience: I went to school for 3d modeling for 2 years. My focus is more on creatures than environments, but i am willing to learn and experience more and broaden my horizons! I have worked on many small projects including working to make a prototype game in the unreal development kit, and am currently working on a game with some friends in the updated Unreal Engine 4. I haven't had the most professional experience with modeling, but I am willing to help out however I can!
