

Skywind Application

TESRenewal Username: LeafJuice

Country of Residence: USA

Timezone: UTC -07 (Mountain Time)

Interested in: Music, Sound Effects, Voice Acting

Level of Commitment: Highly active

Skills and Experience: I have over 6 years of sound design and audio production experience. I have licenses for all my sound software including (FL Studio Signature bundle edition) (Massive) and (Sylenth 1) As well as royalty free sample packs. I have loads of atmospheric sounds and songs that I have not uploaded to soundcloud or bandcamp.

The links I am providing are for a preview to my work, keep in mind, they are old projects now. My skills have greatly increased since my last releases. Because I love Morrowind so much I would really love to help, not to mention I have spent countless hours playing this game. I am currently unemployed so I have a LOT of free time right now.
