

Skywind Application

TESRenewal Username: Maffew

Country of Residence: United States

Timezone: UTC -08 (Pacific Time)

Interested in: Coding/Scripting/Mechanics

Level of Commitment: Moderately active

Skills and Experience: I first took an interest in programming several years ago and have been casually learning on my own time ever since. I am currently studying Computer Science, and I have about two years worth of (formal) experience with C++ and just over a year of experience with C. I am fairly comfortable working with object-oriented programming paradigms and algorithms as well.

I have taken some time to familiarize myself with Papyrus and the CK, and am eager to gain some practical experience with these tools!

Thank you for your consideration.
