

Skywind Application

TESRenewal Username: Mike.

Country of Residence: USA

Timezone: UTC -06 (Central Time)

Interested in: Landscaping

Level of Commitment: Highly active

Skills and Experience: I have a solid understanding of the creation kit and can perform a good job of cluttering interiors.

While I would like to focus on cluttering interiors, I also have an understanding of navmesh and a basic understanding of lighting (both of which I can improve on as desired).

I personally view myself as a perfectionist and will make sure anything I submit for the project is of a high standard. I also am very critical of my own work so I won't submit anything without it being looked at.

Because I want to work on cluttering, I am attaching a link to an interior that I gutted and re-cluttered.
