

Skywind Application

TESRenewal Username: Nebula

Country of Residence: United States

Timezone: UTC -06 (Central Time)

Interested in: Landscaping, Voice Acting, Writing

Level of Commitment: Moderately active

Skills and Experience: I've been an avid morrowind player since its first launch, since then I've went to collage for a degree in computer engineering and computer science in the University of Washington. Also I may have a appealing deep voice for voice acting even if I haven't had any experience. Morrowind is one if not my favorite game in the franchise and would love to see ported with the new skyrim engine. I would be most graciously honored that role.
