

Skywind Application

TESRenewal Username: no_thanks

Country of Residence: Canada

Timezone: UTC -05 (Eastern Time)

Interested in: Coding/Scripting/Mechanics,Landscaping

Level of Commitment: Highly active

Skills and Experience: For coding, I am a 3rd year Computer Science student, have about a year of experience with Python(scripting in another object-oriented language). Know basic Papyrus, such as what are events, properties, functions, how scripts are structured etcetc. Know how to make quests.

For Landscaping, every skill listed for interior designers, except TES5Edit.

Essentially can make finished dungeons from scratch with navmesh, encounters, fx and any scripts/quests/dialogues if necessary.

If there is anything else that needs to be done codewise, besides scripting,

I know java and C, if that is of any relevance.

*Note about commitment. For the next 2 months or so I can be highly active, unfortunately after that it will go down to somewhat-moderately active.
