

Skywind Application

TESRenewal Username: Pand.Ammonia

Country of Residence: Sweden

Timezone: UTC +01

Interested in: 3D Modelling, Landscaping, Writing, Mo-Cap equipment, Level-editing, Scripting (+some coding)

Level of Commitment: Moderately active

Skills and Experience: Well I have been working with 3d for about 4-5 years now, almost everyday. I have also scripted alot and I know coding enough to understand what someone is working on but not enough to be comfortable in a coding-position.

So my coding is not as near of a polished skill as my 3d-work.

I have Mo-Cap equipment and can record any animation, recordings will need some cleaning up though by some one more experienced animation-artists.
