

Skywind Application

TESRenewal Username: pheanox

Country of Residence: Italy

Timezone: UTC +01

Interested in: QA

Level of Commitment: Moderately active

Skills and Experience: * # of years of QA Experience:

I worked professionally as an automation script QA for a year.

Additionally I have beta-tested games for the past several years. Primarily RimWorld, where I was a private tester from the beginning.

* knowledge using Papyrus (preferred not essential):

No experience, I do have an AS in Computer Science focused in Java so I could probably figure it out if I had to.

* Experience using Console commands:

I have been using console commands since TES3, primarily for personal

use.

* Knowledge level of the original Morrowind Game:

I started playing Morrowind when it was released. I replayed it multiple times and consider it the best of the TES games so far, even if the combat is a bit dated now. I modded it extensively as well.

* Availability and time you can commit:

I am in GMT +1. I work night shifts, so am available usually after 1900. I have probably 10-20 hours I can commit every 2 weeks.
