Country of Residence: United States

Timezone: UTC -06 (Central Time)

Interested in: Landscaping, Production

Level of Commitment: Moderately active

Skills and Experience: I've modded quite a bit in Skyrim, modded when I was younger with Morrowind and Oblivion (mainly creating new dungeons and customizing weapons with enchantments).

Currently I work for myself at the company I started, writing news articles about gaming as well as leading production on several projects of my own (in Unreal Engine).

I mainly would like to come onto this project because Morrowind is a

game I know like the back of my hand, and having explored the entire world extensively I fell like I would be able to lend my knowledge and skill to world building and recreating the world of Morrowind!
