Country of Residence: Lyon

Timezone: UTC +01

Interested in: Translation

Level of Commitment: Moderately active

Skills and Experience: I hate seeing bad translations of good dialogs or stories. So i'd like to translate everything I can from english to french and I really insist on that : I want to help to make this mod awesome!

I have a good french level because I'm currently studying french, while other people study sciences or other things.

I love video games too, and helping an invested team to make a beautiful mod concerning some of my favorites games will make me really happy! If i'll be able to work with you, I will spend the more I can to help!
