Skills and Experience: I have a BFA, specialising in painting.

I am fantastic at digital painting, and am known for my speed to quality ratio (I produce great work really quickly).

I'm currently a tattoo designer on a website called Custom Tattoo Designs.

I would REALLY love to get some legit concept art into my portfolio. ^_^

I just finished a project where I was sole illustrator for a six minute animation, and I know you know that's impressive.

I am a Skyrim addict. Hi.

I'm a glorious dancer.

I'm clicking moderately active, since I won't lie; paid work will take priority.
