Country of Residence: US

Timezone: UTC -08 (Pacific Time)

Interested in: Voice Acting,QA

Level of Commitment: Moderately active

Skills and Experience: I have no experience. I pay attention to detail, which is a reason why I might be suited to QA. However, I am no professional. I played Morrowind for a little over 2000 hours, and Skyrim for a little over half of that. As for voice acting, I have a slight midwest US accent and am unsure what race, if any, that I would be best suited for. I don't have a link to demonstrate my experience, so the like under "Proof of skills" is just a picture of a thug cat.
