

Skywind Application

TESRenewal Username: Trowg

Country of Residence: Norway

Timezone: UTC +01

Interested in: 3D Modelling

Level of Commitment: Moderately active

Skills and Experience: At the moment taking my master degree in applied computer science in Norway. Had 3D modeling and animation course at school (along with (game)programing, game development, videoproduction ++), got straight a's. Found 3D modeling highly entertaining - currently modeling cosplay gear for 3D print. Not good at character/creature modeling yet. Best at intererior details (furniture, doors etc.) and outdoor objects.

Would be an honor to get to model something for Skywind!
