Skills and Experience: I'm a hobby 3d artist and never publish anything online and i quite recently deleted everything on my computer. I can do architect stuff and singel assets like chairs, swrods, pipes etc. Things i really struggle with are living creatures.

The file i provided is somthing i smashed together in about 20 min. If you requier to see somthing "higher quality" i can make a higher quality scen, but didn't really want to spend a lot of time on a scen when i have nothing saved.
