

Skywind Application

TESRenewal Username: vxcx

Country of Residence: USA

Timezone: UTC -05 (Eastern Time)

Interested in: Animation, Coding/Scripting/Mechanics, Writing

Level of Commitment:

Skills and Experience: I'm most proficient in Java, but also know C, PHP, JavaScript, and MASM. I'm extremely familiar with the Eclipse development environment as well as using the Git plugins and git bash.

I'm currently pursuing a Bachelor's in Computer Science at North Carolina State University (Junior) and have been interning at SAS Inc. at Cary NC for the past 4 years. I'm very familiar with working in teams and the development cycle. Although I'm not familiar with the Creation Kit or Papyrus, I'm a quick learner.

Though it's not what I'm applying for, I also have good writing skills, stemming from creative writing to technical writing. I've included a sample of a story I wrote a while ago. I'd like to help in any capacity as the team needs.
