TESRenewal Username: Wrandomyz

Email Address: jtwhite27@gmail.com

Skype Username: jtwhite27

Country of Residence: United States

Timezone: UTC -07 (Mountain Time)

Interested in: Coding/Scripting/Mechanics,Landscaping,Agile Team/Project Management

Level of Commitment: Highly active

Skills and Experience: I'm an Agile/PM professional with several years of team/project management with creative and technical teams, and am a Certified ScrumMaster. I have some light experience with OOP in C++, exposure to Python (re: I've dabbled), and a lot of experience with GIS (ArcGIS) and image processing (ENVI). Not sure if those last two are relevant, but with a Geography degree in GIS, thought it might be cool to add! :)

I'm really looking for opportunities to work with some more creative and technical teams, helping them to work towards shippable products, and improve workflow for our community! Currently I'm working with an Engineering Manager at a triple-A studio to improve on some of my skills so I can join his team within the year, so I have a lot of time to dedicate to this community/mod if there's somewhere I can help out.

If you'd like more specific info on me, please message me and I can share my LinkedIn profile with you! Thanks.
